Data Analyst Exercise

Guidelines: You are welcome to use R or Python or STATA for this exercise

Deliverable: Code files (you do not need to send a presentation)

Timeline: You have 4 hours from the time you receive this activity to complete and send us your code files. You will be asked to present your findings during the follow-up interview – so please prepare a presentation (of any type) prior to your interview. If you have any questions, please reach out to (contact hidden)

Exercise Questions: Using the COVID-19 data provided, conduct any analysis to extract meaningful insights (we are not looking for a model but simple descriptive statistics).
